MEMORANDUM FOR: The Director

The House Rules Committee hearing this morning on Joint Committee on Intelligence proposals was broken up by a quorum call. However, Congresswoman Edna Kelly did get a chance to speak and in effect called the Armed Services Committee negligent, which has thoroughly aroused Mr. Vinson and Mr. Arends. Mr. Rivers will also appear against the proposals, and Mr. Price, who is a member of the Joint Committee on Atomic Energy, is adamant against these proposals and is going to work on some of the proponents. These include, besides Mrs. Kelly, Mr. William Ryan, Mr. Gibbons, and Mr. Lindsay, who will appear when the hearing is continued on Thursday. Other proponents may also appear at that time.
